

**Sensible Salting Committee  
Engineering Enterprises, Inc.  
52 Wheeler Road, Sugar Grove**

**May 20, 2019**

**Meeting Minutes**

Present: Peter Wallers, EEI; Angie Smith, EEI

Conference Call: Scott Kuykendall, McHenry County (SSC Chairman); Jim “Turk” Turcan, Cornerstone Properties; Rosie, Midwest Salt; Jennifer Hammer, The Conservation Foundation; Tony Johnson, Midwest Salt; John Kawka, Morris Engineering; Tony Johnson, Midwest Salt; Jessica Mino, Kane County; Stephen McCracken, The Conservation Foundation; Faye Sinnott, BACOG

Scott called the meeting to order at 3:33 PM.

**Welcome, Roll Call and Introductions:** None at this time.

**Approval of March Meeting Minutes:** Will be reviewed/approved at next meeting. This item has been tabled at this time.

**Status Update:** Scott (Chairman) prepared the group for the discussion today and the goal for the meeting today is to put an action plan together for moving forward.

**Update and Discussion with Jennifer Hammer on Salt Smart Initiative:** Prior to the meeting Jennifer e-mailed out a compiled handout suggesting certain items/timelines that would like to have happen.

Discussion was had amongst the group related to the draft BMP manual that has been compiled to date and how to move forward at this time. Jennifer (TCF) commented on the work that has been completed to date and it’s certainly usable, but it doesn’t tell you how to implement the BMP’s. Having the framework of the manual would be a key piece in order to assist with finding funding. Scott (Chairman) is looking for assistance in editing and offering a new set of eyes to look at the manual. Jennifer (TCF) willing to help out, but not necessarily her strong suite. Sarah Zack with IISG has offered to assist in the order of “ease to read”, however, she does not have the knowledge related to sensible salting. If anyone can think of another person for this capacity please send their contact information to him so he can reach out to them. Scott will add Turk’s information to the draft manual and will take another look at Tony’s information that he had sent in as well. The group was in agreement that we would proceed this way at this time and then re-issue the draft BMP manual.

**Near/Long Term Goals:** Step 1: Prepare our draft BMP Manual; 2. Rely on Jennifer Hammer (TCF) to assist in finding funding (Pete will follow-up with IEPA to see how they would be able to provide any money and report back at the next meeting); 3. If we did receive the money then we would be able to proceed with the Certification Manual/Training.

The next meeting will be held on June 17, 2019 at 3:30 PM at Engineering Enterprises, Inc.

The meeting was adjourned at 4:06 PM.
